

Meghraj Jagtap

UI/UX DESIGNER

Product Designer with end-to-end expertise in user research, UI design, and no-code development using Framer and Webflow. I focus on building products, not just interfaces - taking ideas from discovery and strategy to polished, shipped experiences. Looking to bring a builder's mindset to a fast-moving product team.

Work Experience

User Interface Designer / eLuminous Technologies Pvt Ltd.

JAN 2025 - JULY 2026 / Full- time, In-office

- **Redesigned eLuminous Technologies' corporate website**, improving information architecture, visual consistency, and overall user experience.
- **Led the end-to-end website redesign**, from UX research and wireframing to high-fidelity UI design and developer handoff.
- **Established a scalable design system** and reusable UI components to ensure consistency across key website pages.
- **Optimized navigation and page layouts** to improve content discoverability and create a more intuitive user journey.
- **Designed and launched MGF Software Lab's corporate website** from scratch, defining the information architecture, visual identity, and end-to-end user experience.
- **Collaborated with international clients across the USA, Austria, Europe, and Africa**, delivering user-centric websites and mobile applications for diverse industries.

UI/UX Designer / Datamatics Global Services Limited

JUN 2023 - NOV 2024 / Full- time, In-office

- **Collaborated with Crowdbotics as the primary client engagement** while at Datamatics, designing user-centric digital products for their enterprise customers.
- **Worked on UX/UI for enterprise web and mobile applications**, partnering with cross-functional teams to deliver scalable solutions aligned with client and business requirements.

UI/UX Designer / Quest Global Technologies Ltd.

SEP 2022 - JUN 2023 / Full- time, Remote

- **Designed crypto and Web3 products**, including trading platforms, digital wallets, and blockchain-based solutions, gaining deep expertise in **cryptocurrency and the metaverse ecosystem**.

Junior Associate Designer / Affinity Express, Inc.

JAN 2021 - JUN 2022 / Full- time, In-office

- Started as a Web Designer, **creating responsive websites for clients** across the USA, delivering tailored digital experiences for businesses ranging from local brands to large enterprises.
- Built a strong foundation in UX/UI by collaborating with **international clients**, gaining deep insight into **design standards, business expectations**, and user preferences across the **USA, UK, and Europe**.
